

PIE ACADEMY

Empowering Learners and Putting Them in Control of their Future

WHO ARE **WE**?

Dutch and English-speaking experts in international education with qualifications and experience in guidance, counseling, tutoring, live support, and a passion for accessible education.

WHO ARE **YOU**?

An **individual** or **institution** who cares about a learner's education and is seeking new ways to advance their academic and professional future in an English-speaking world.

AND **WHY**?

The learning settings or options available are not a good fit or guidance is lacking.
The curriculum offered is not broad, not challenging, or varied enough.
The education system is not a good fit for psychological, physical, religious, or financial reasons.

SO **WHEN**?

Start **NOW** to reach personal and educational goals, with the learner's pace and budget in mind, and with access to accredited e-learning platforms backed by experienced teachers and counselors. Obtain official transcripts, diplomas, certificates, and recommendation letters that demonstrate the learner's knowledge and skills, and an e-portfolio that showcases the learner's accomplishments.

FOR EVERYONE • SELF-PACED • ANYWHERE • ANYTIME

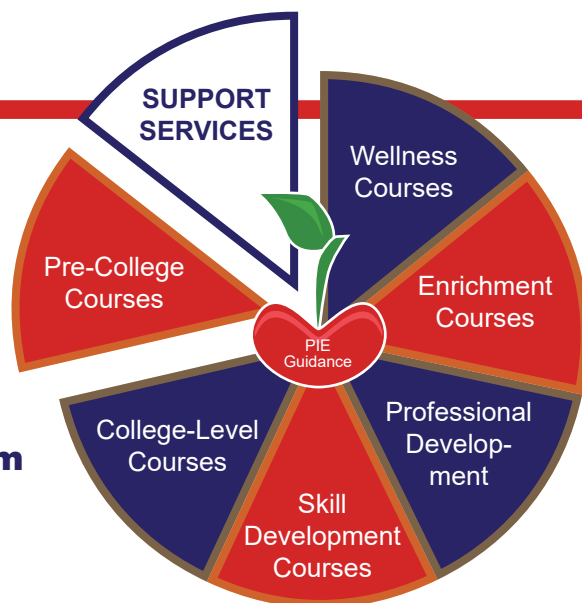

Save **Time & Money**
Obtain International Education
from the Comfort of **Your Home Country**

Recently

We have partnered with regular schools and Centers for the Highly Gifted to provide learners with flexible education to reach their goals.
